How it is calculated: a working day is a date when the district team submitted forms (42 days in D.I. Khan, 46 in Hangu). Each enumerator is counted from their first form to 7 Nov, or to their last form if they have left. Target = 9 forms (3 HH) × working days, so a day with no forms still counts. Achieved = forms submitted ÷ target. All submitted forms count, including incomplete visits. HH covered = different households with a Father or Mother form. HH completed = households fully completed, as on the dashboard. Status: On/Above Target 100% or more; Near Target 70–99%; Below Target under 70%.

Notes: Sunday 4 Oct (D.I. Khan) had only 1 form, from Irum Ikram, so it is not a working day; the form is in her total. Javairia includes 6 forms on 23 Oct under the login “Jaweria”, as on the dashboard.
